Setup

- 1 Place the smaller side of the **Cliff Pedestal** (A) on the **Ocean Board** (B), using the long and short tabs on the **Cliff Pedestal** to guide assembly.
- 2 Place the **Island Board** (C) on top of the **Cliff Pedestal** (A), again using the long and short tabs to guide assembly.
- 3 The youngest player is the **Start Player**, who begins by placing 2 **Workers** (D) of their chosen color into any **unoccupied spaces** on the board. The other player(s) then places their **Workers** (E).

How To Play

Players take turns, starting with the **Start Player**, who first placed their **Workers**. On your turn, **select** one of your **Workers**. You must **move** and then **build** with the selected **Worker**.

Move your selected **Worker** into one of the (up to) eight **neighboring spaces**.

A **Worker** may **move up** a maximum of one level higher, **move down** any number of levels lower, or **move along** the same level. A **Worker** may not **move up** more than one level.

The space your **Worker** moves into must be **unoccupied** (not containing a **Worker** or **Dome**).

Build a **block** () or **dome** () on an unoccupied space **neighboring** the moved **Worker**.

You can **build** onto a **level** of any height, but you **must** choose the correct shape of **block** or **dome** for the **level** being built (See diagram to the left). A tower with 3 **blocks** and a **dome** is considered a "Complete Tower".

Winning the Game

- 1 If one of your **Workers** moves **up** on top of **level 3** during your turn, you instantly win!
- 2 You **must** always perform a **move** then **build** on your turn. If you are unable to, you lose.

You are now ready to play the base 2-player game! We strongly suggest you play several games using only these rules. Read on when you are ready for more!

Components

SIMPLE GODS

Setup God Powers

Once you've played a few 2-player games using only the rules on the front page of the rule book, we suggest you try **God Powers**.

God Powers are cards that provide you with a powerful ability **A** that can be used throughout the game. Many **God Powers** change the way **Workers** **move** and **build**.

God Power Setup

After setting up the Island using only step 1 and 2 from "Setup" section on page 1, perform the following steps:

- 3 The **Challenger** (determined by who is the most "god-like") chooses **God Powers** equal to the number of players.
- 4 If playing a 3-player (3 players) or 4-player (4 players) game, ensure all chosen **God Powers** are compatible with the number of players **B**. All **God Powers** are playable in 2-player games.
- 5 The **Challenger** reads each selected **God Power** aloud from the rule book. Refer to the set icon and index number **C** to find each **God Power** description.
- 6 In clockwise order, everyone chooses a **God Power** and places it in their area. The **Challenger** receives the last **God Power**.
- 7 The **Challenger** chooses a **Start Player** (including themselves). The **Start Player** places 2 **Workers** of their chosen color on any **unoccupied spaces** on the board. In clockwise order, the other players each place **all** their **Workers**.

Many **God Powers** feature a  icon **D** to indicate it can be used in **Golden Fleece variant** (Golden Fleece Expansion sold separately).

Using God Powers

Normal Rules and conditions still apply to you when using a **God Power**, with the exception of the specific changes described by the **God Power**.

You must obey all **God Power** text that says you "cannot" or "must", otherwise you lose the game.

Domes are not blocks. If the **God Power** description states it affects **blocks**, it does not affect **domes**.

"Forced" is not "moved". Some **God Powers** may cause **Workers** to be "forced" into another space. A **Worker** that is **forced**, is not considered to have **moved**.

Remember: to win the game by **moving** onto the third level, your **Worker** must **move up** during **your** turn. Therefore, if your **Worker** is **Forced** onto the third level, you do not win the game. **Moving** from one third level space to another also does not trigger a win.

God Powers apply or are triggered at a specific time, according to what is stated at the start in the **God Power's** description.

For example, Apollo's **God Power** description starts with "Your Move". This means if you possess Apollo's **God Power**, it can only be used by you during the "move" phase of **your** turn.

When using a **God Power**, all text in its description is written from the perspective of the player possessing the **God Power**. Any time an "opponent" is mentioned in a **God Power** description, it is referring to an opponent of the player possessing the **God Power**.

Additional Setup must be performed when using some **God Powers**. If your selected **God Power** features "Setup" text in the description, execute these special instructions during the game **Setup** when placing your **Workers**.

Additional Win Conditions are specified by some **God Powers**. In **addition to** being able to win by **moving up** onto the third level during your turn, you can also win by fulfilling the "Win Condition" described.

Banned VS. Gods featuring a  on them indicate banned matchups. We strongly suggest that you do not play a **God Power** against any of the banned gods listed because the matchup is either not compatible, not interesting, or highly imbalanced. There are no banned matchups in the core game.

For the first few games you use **God Powers**, we strongly suggest using the Simple **God Powers** below, indicated by the hibiscus flower .

GOLDEN FLEECE SANTORINI

HEROES

Components

Golden Fleece Variant

Golden Fleece variant provides a different 2-player experience where the Ram figure grants the blessing of a single God Power to whomever is touching it.

Setup

After setting up the Island using only step 1 and 2 from "Setup" section on page 1, perform the following:

- 3 Select a God Power showing the Golden Fleece icon in the top right, and place it beside the board (Players do not have individual God Powers).
- 4 The oldest player starts by placing two Workers of their chosen color into any unoccupied spaces on the board. The other player then places their Workers.
- 5 The player who placed Workers first, places the Ram figure on any unoccupied space. The other player takes the first turn.

Start of Any Turn

Any player with a Worker neighboring the Ram figure has the God Power for the rest of the turn (including End of Turn powers)

Using Hero Powers

A **Hero Power** is an ability that you may perform only **once per game**. Only you may use this power, and no opponent's power can make you use it.

A **Hero Power** cannot be used in the **Golden Fleece variant**. **Hero Powers** are only supported in a 2-player game. **Hero Powers** are easily identified by the purple back **A** and **Helmet icon B** on in the border.

Setup

Use the "God Power Setup" instructions.

Hero Powers are often weaker than **God Powers**. For a balanced game, we recommend only playing **Hero Powers** against other **Hero Powers**.

Hero Powers can also be used to balance games between players of unequal skill, whereby more experienced players are encouraged to select a **Hero Power** for themselves and a **God Power** for their opponent.

3 & 4 Players

Santorini is best as a 2-player game. However, we have included rules for 3 and 4-players for those times when you really want to play with more people.

When playing with 3 or 4 players, all of the 2-player rules apply, with the following adjustments:

Setup

For 3 and 4-player games, you must play with **God Powers**. When selecting which **God Powers** to play with, they must all feature a  icon when playing a 3-player game, or a  icon in a 4-player game.

3 Players

If you lose in a 3-player game, immediately remove your **Workers**, **Tokens**, and **God Power** from the game. If only one player remains, they are the winner.

4 Players (Team Game)

You play in teams of 2 players, who share control of 2 **Workers**. Teammates must sit across from each other (teams alternate turns). Each player has their own **God Power**. You **cannot** use your teammate's power.

During setup, your team's first player places the **Workers**. Your team's second player takes the first turn.

If any player wins, their team wins. If any player loses, their team loses.

Glossary

Block: A part of a **tower** and forms a space on the board. When you **build**, place **blocks** from largest to smallest so that they stack. For reference, see the "Complete Tower" diagram on the front page. Blocks are considered to be of unlimited quantity. If you run out of **blocks** of any type, remove a **Complete Tower** from the board and place a dome on the ground in its place.

Complete Tower: Consists of exactly three **blocks** and a **dome**.

Dome: The top level on a **Tower**. **Domes** cannot have anything placed upon them. A **dome** may only be **built** on top of the third level, unless otherwise specified by a **God** or **Hero Power**.

Neighboring: Each space has up to eight spaces surrounding it. These are called its **neighboring** spaces.

Occupied Space: A space containing a **Worker** or **dome**.

Perimeter Space: One of the 16 spaces along the edge of the board.

Token: A marker specific to a **God** or **Hero Power**. You cannot place a **Token** onto a space that is occupied or contains another **Token**. Remove **Tokens** from the board when **blocks** are placed upon them.

Unmoved Worker: A **Worker** that did not move on your turn.

Unoccupied Space: A space not containing a **Worker** or **dome**.
